EXAMINER'S AMENDMENT

Application and Claims Status

1. Applicant's amendment and response filed 05/04/2009 are acknowledged and entered.
2. Claims 1-11, 13, 14, 16, and 17 were pending. Applicants have amended claim 1; cancelled claims 16 and 17; and added claim 18. Therefore, claims 1-11, 13, 14, and 18 are currently pending and are allowable.
3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dicran Halajian on 06/25/2009.

The application has been amended as follows:

- A. Please **cancel** claim 2.
- B. Claim 1 is rewritten as follows:

--**"An active matrix display device comprising an array of display pixels, each pixel comprising:**

a current driven light emitting display element and a first drive transistor for driving a current through the display element, the display element and the first drive transistor being in series between power supply lines;

Art Unit: 2629

a first storage capacitor for storing a gate-source voltage of the first drive transistor;

a second drive transistor, operable only during pixel programming, for providing a drive current based on an input I voltage provided to a gate of the second drive transistor;

a second storage capacitor for storing the input voltage for driving the second drive transistor, wherein the second storage capacitor is connected between the gate and a drain of the second drive transistor;

wherein the drive current provided by the second drive transistor passes through the first drive transistor, a voltage thereby being generated on the first storage capacitor corresponding to the drive current.”--

4. The following is an examiner’s statement of reasons for allowance:

Claim 1 is allowed for the reason that the cited prior arts, especially the prior art of US 2002/0021293 A1, do not teach or fairly suggest the presently claimed display device.

Claims 14 and 18 are allowed for the reason that the cited prior arts do not teach or fairly suggest the presently claimed method of addressing an active matrix display device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Art Unit: 2629
